

ATS Resume Builder — Admin Customization Guide

Step-by-Step Instructions: AI Provider/Keys, Resume Templates & App Control

Version: 2.0 · Date: August 2026 · Author: DeepMind Agentic Coding

1. Admin Panel Overview & Access

The Django Admin Panel provides complete runtime management of your ATS Resume Builder system without requiring code changes or server redeployments. From the admin panel, you can configure AI providers and API keys, customize or add new ATS resume templates, manage user accounts, and adjust scoring weights.

Admin URL:	http://127.0.0.1:8000/admin/ (Local) or https://yourdomain/admin/ (Prod)
Superuser Login:	Email: admin@admin.com Password: admin123
Create Superuser Command:	python manage.py createsuperuser

2. Part 1 — Configuring AI Provider & API Keys

You can switch AI providers, keys, models, and endpoints live directly from **Accounts** $\rightarrow$ **App Settings** at `/admin/accounts/appsettings/`.

Step-by-Step Setup:

Step 1: Log in to Django Admin and navigate to **App Settings**.

Step 2: Locate the AI settings rows in the settings table:

Setting Key	Description & Options	Example Values
AI_PROVIDER	Choose provider endpoint architecture. Options: openrouter, openai, anthropic, google, custom	openrouter
AI_API_KEY	API key for provider. Masked in admin list.	sk-or-v1-xxxx... sk-ant-xxxx...
AI_MODEL	Model identifier passed to provider.	openai/gpt-4o-mini claude-3-5-sonnet-20241022 gemini-1.5-flash
AI_BASE_URL	API Base URL endpoint.	https://openrouter.ai/api/v1 https://api.openai.com/v1 https://api.anthropic.com/v1
AI_ENABLED	Enable or disable AI features system-wide.	true or false

AI_MAX_REQUESTS_PER_DAY	Per-user daily quota cap.	50
-------------------------	---------------------------	----

Provider Specific Examples:

Option A: OpenRouter (Default)

AI_PROVIDER: openrouter
AI_API_KEY: sk-or-v1-your-key
AI_MODEL: openai/gpt-4o-mini
AI_BASE_URL: https://openrouter.ai/api/v1

Option B: Direct OpenAI

AI_PROVIDER: openai
AI_API_KEY: sk-proj-your-openai-key
AI_MODEL: gpt-4o-mini or gpt-4o
AI_BASE_URL: https://api.openai.com/v1

Option C: Anthropic Claude

AI_PROVIDER: anthropic
AI_API_KEY: sk-ant-api03-your-key
AI_MODEL: claude-3-5-sonnet-20241022
AI_BASE_URL: https://api.anthropic.com/v1

Option D: Google Gemini

AI_PROVIDER: google
AI_API_KEY: AIzaSy-your-gemini-key
AI_MODEL: gemini-1.5-flash

Note: Changes take effect immediately on save. No server restart required.

3. Part 2 — Adding & Customizing Resume Templates

You can manage existing templates or publish completely new templates from **Resume \$rightarrow\$ Resume Templates** at `/admin/resume/resumetemplate/`.

Step-by-Step Instructions to Add a Template:

Step 1: Click the **+ Add Resume Template** button at top right of the table.

Step 2: Fill in the Basic Information:

- **Name:** Display name (e.g., *Executive Slate*)
- **Slug:** Unique identifier slug (e.g., *executive_slate*)
- **Description:** One-line summary for user selection
- **Category:** universal | modern | formal | technical | compact | entry
- **Best For:** Audience target text (e.g., *Senior Directors, VPs*)
- **Sort Order:** Integer grid position (e.g., 16)
- **Is Active:** Check [x] True

Step 3: Configure Section Orders (JSON Arrays):

`section_order_experienced`: Defines section order for candidates with work history:

```
[ "header", "summary", "experience", "education", "skills", "projects", "certifications", "achievements", "languages" ]
```

`section_order_fresher`: Defines section order for students and entry-level candidates:

```
[ "header", "objective", "education", "skills", "projects", "internships", "certifications", "awards", "languages" ]
```

Step 4: Configure HTML/CSS Styles (JSON Object):

The styles JSON dict controls live preview styling in the builder and standalone preview:

```
{
  "font_family": "Arial, Helvetica, sans-serif",
  "font_size": "10.5px",
  "line_height": "1.55",
  "name_size": "20px",
  "name_weight": "700",
  "name_color": "#0f172a",
  "accent_color": "#2563eb",
  "section_header_size": "10.5px",
  "section_header_weight": "700",
  "section_header_transform": "uppercase",
  "section_header_color": "#2563eb",
  "section_divider": "border-bottom: 1.5px solid #e2e8f0",
  "header_divider": "border-top: 2px solid #2563eb",
  "contact_color": "#475569",
  "body_color": "#1e293b",
  "muted_color": "#64748b",
  "margin": "0.7in",
  "page_margin_top": "0.65in"
}
```

Step 5: Configure ReportLab PDF Parameters (JSON Object):

The `pdf_config` JSON dict controls ReportLab PDF generation margins, sizes, and colors:

```
{
  "name_size": 18,
  "name_color": "#0f172a",
  "accent": "#2563eb",
  "section_size": 10.5,
  "body_size": 9.5,
  "sub_size": 9,
  "left_margin": 0.7,
  "right_margin": 0.7,
  "top_margin": 0.65,
}
```

```
"bottom_margin": 0.6,  
"section_rule_color": "#e2e8f0",  
"header_rule_color": "#2563eb",  
"header_rule_width": 2,  
"section_rule_width": 0.75  
}
```

Step 6: Click Save. The new template immediately becomes selectable in the Builder Grid, Live Preview, and PDF export!

4. Part 3 — Managing ATS Scoring & System Data

You can tune the weights of the ATS scoring algorithm from **ATS** $\rightarrow$ **ATS Configs** at `/admin/ats/atsconfig/`.

Config Key	Default Value	Description
keyword_weight	0.40 (40%)	Weight given to job description keyword matching score
section_weight	0.25 (25%)	Weight given to section completeness check score
format_weight	0.20 (20%)	Weight given to ATS formatting and structure check score
readability_weight	0.15 (15%)	Weight given to text word count and readability score
min_skills_count	8	Minimum recommended skills count threshold
min_word_count	200	Minimum recommended resume total word count threshold

5. Management CLI Commands Reference

Command	Purpose & Description
<code>python manage.py seed_data</code>	Seeds or updates all 15 default templates and AI app settings into DB
<code>python manage.py createsuperuser</code>	Creates an administrative user account for login access
<code>python manage.py check</code>	Runs Django system integrity check
<code>python manage.py runserver</code>	Launches local development server at <code>http://127.0.0.1:8000</code>

Summary Verification Checklist:

- ✓ **AI Settings:** Check `/admin/accounts/appsettings/` to set provider & API key.
- ✓ **Templates:** Check `/admin/resume/resumetemplate/` to edit/add templates.
- ✓ **ATS Config:** Check `/admin/ats/atsconfig/` to tune weights.
- ✓ **Users:** Check `/admin/accounts/user/` to view active accounts and usage.
